

# James Reeser

And his *HOT* Blues Quartet.  
Biography.

With great enthusiasm and over 20 years of stage experience James keeps audiences alive and asking for more. Keeping focused on traditional, electric, Chicago -style blues has always been his musical goal. He tries hard to keep himself surrounded by the best musicians possible both on stage and in the studio. Currently the band performs in the Midwest area, primarily in the Great Lakes region.

James is a master of the "fat-toned harp" sound and is exceptionally adept at playing chromatic harps. He uses only HarpKing and Victoria amplifiers along with Astatic microphones.

The band, at this writing, is working on a CD. Please check back to our website ([jamesreeser.com](http://jamesreeser.com)) from time to time to see when it will be released. We will be having a CD release party and we will be making it available on this site. You can check out and download preview songs from our website on the downloads page.
